

Our school is powered by renewable electricity

1. Name some non-renewable energy sources

1. _____
2. _____

5. What technology do you need to get energy from the wind?

- _____
- _____

2. How is renewable energy better for the environment?

- _____
- _____
- _____

6. What uses electricity in your school?

1. _____
2. _____
3. _____

3. What technology do you need to get energy from the sun?

- _____
- _____
- _____

7. How can we store energy and use it later?

- _____
- _____
- _____

4. Match the natural energy source with the renewable energy

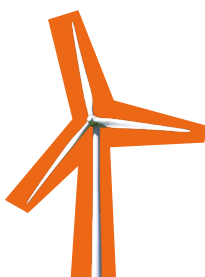

Sun

Wind

Water

Turbine

Hydro

Panel

Follow the sources of renewable energy

Trace your path out of this maze by passing by all the renewable energy sources you can find.
